

## **EAS Mission Statement**

The EAS is a music education network. It interconnects all those involved in music education (teachers, teacher educators, researchers, students, musicians, policy makers) to share knowledge and experience in practice and research, and to advocate for high quality music education that is accessible to all young people.

The EAS aims to support the music education community in fostering and developing essential competencies to advance practice and research, and to aid cultural awareness. Our work invites music educators to motivate learners to pursue their own interests and goals with confidence, and to facilitate young people's creativity.

The EAS operates in accordance with the principles of UNESCO.

The pursuit, or concrete activities through which the NPO realises its goals are inter alia: The EAS organises an annual conference, initiates and engages in a range of other music education activities and projects, and cooperates with partner organisations in the European and global context.

(as agreed by the EAS members at the General Meeting, March 2021, Freiburg)
