

Welcome to Vienna!

We hope you've had a great journey so far! This is your guide on getting to **from the airport to Landstraße – Wien Mitte**:

First, take the rapid transit railway „S-Bahn“ **S7 in the direction Wien Floridsdorf or Laa/Thaya Bahnhof**. The train **REX 7** in the direction of Floridsdorf is also a possible connection for you. These trains all depart from the train station at the airport. You can recognize the train station by the following signs:

The **CAT-train** also takes you to the city center. However, we don't recommend taking it, as it is more expensive than the regular express trains to the city.

Before you get on the train you must buy a ticket from an ÖBB or Wiener Linien ticket machine. The ticket machines are located near the train station.

Here are the steps to purchase your ticket:

1. Touch the start symbol
2. Choose the destination: **Landstraße Wien-Mitte**
3. Select the next S-Bahn S 7 or REX 7 connection towards Floridsdorf or Laa/Thaya Bahnhof.

Source: <https://www.oebb.at/de/reiseplanung-services/am-bahnhof/ticketautomat>

Select ‚single journey‘ and make sure that your **ticket covers two zones**: from the airport to Vienna city boundary + the ticket within Vienna. It is also possible to book a ticket online via: <https://shop.oebbtickets.at/de/ticket>

The price for one single ticket is around € 4,60.

If you travel further with the metro, you will not need another ticket. Your ticket is valid for 80 minutes after validation. However, if you interrupt your journey and your travel time extends beyond 80 minutes, you will need to purchase a new ticket.

Conference Location

The conference takes place at the main campus of the mdw, at Anton-von-Webern-Platz 1, A-1030 Wien.

We recommend using public transportation to reach the conference location.

The mdwCampus is fully accessible from the following stations within 550 meters (approx. a 7-minute walk):

- **S-Bahn** Wien Mitte
- **U3** Landstraße
- **U4** Stadtpark or Landstraße
- **tram line 0** Ungargasse/Neulinggasse

The lines run between 05:00 and 00:30 at intervals of 2 to 7 minutes.

There is a WienMobil Rad-Station on campus, located between building B and building E. A sufficient number of bicycle parking spaces are available directly at the venue. There is a bicycle service pillar on the mdw campus (Building K).

Plan of the main campus:

A detailed mdw campus room guide can be found on the
