● How to prepare for the online event

- Learn the EuDaMuS song *Together* – the anthem of the European Day of Music in Schools – so your students can sing along during the event.
- Tell your students and colleagues what to expect during the online event.
- Explain to your students, teachers, parents or local community why music in schools matters.
- Decorate your classroom – with drawings or flags, for example – so the other schools can see which country you are from and what music your students like.
- Check your internet connection and audio in advance, and make sure your Zoom app is up to date.
- Add **15 March 2027, 11:00 – 11:30 CET** to your calendar. The Zoom meeting opens 15 minutes before the event starts.
